Requirement Analysis

Data Flow Diagram & User Stories

Date	5 September 2026
Student Name	Satya Durga Nooka Ambica Tenagala
Project Name	Automated Network Request Management
Maximum Marks	

Logical Data Flow

Step	Flow
1	Employee opens the Service Portal.
2	Selects the Network Request catalog item.
3	The catalog item opens the Network Request form.
4	Employee enters the required network request information.
5	Catalog UI Policies and validations display relevant fields and validate the form.
6	Employee submits the Network Request, creating the REQ/RITM and request record.
7	Flow Designer processes the request and sends it for approval.
8	After approval, a Network Task is created and assigned to the Network Fulfillment Team.
9	The Network Team processes and completes the request.
